The Contracting Officer is appointed by resolution of the members of the Corporation. The Contracting Officer for purposes of this Policy is designated as the Executive Director. 5. Disposal Procedures

Disposal for Fair Market Value: Any Property may be disposed of by the Corporation for fair market value. Methods for fair market value disposition include sale, transfer or exchange for cash, credit or other property.

- a) In accordance with New York State Law, no disposition of Property for other than fair market value shall be made unless an appraisal of the value of the Property is made by an independent appraiser and included in the record of the transaction.
- b) Public bidding: Property should be disposed of after publicly advertising for bids except in the following circumstances:
 - (1) Disposal involves personal property of a nature and quantity which, if publicly bid, would adversely affect state/local market for such property and fair market value and other terms can be obtained by negotiation;
 - (2) The fair market value of the property does not exceed \$15,000;
 - (3) Bid prices after advertising are not reasonable or have not been independently arrived at in open competition;
 - (4) Disposal is to the State or a political subdivision and the fair market value and other terms are obtained by negotiation;
 - (5) Otherwise as authorized by law.

Where the Corporation deems a particular transaction to fall within one of the above referenced exceptions to public bidding and disposes of property by negotiation, a statement of the disposition is required and must be transmitted to the Comptroller, Director of the Budget, Commissioner of General Services and the Legislature at least ninety (90) days in advance of disposal of the Property, with a copy of such statement to be retained in the Corporation's records.

Disposal for Less than Fair Market Value: Transferring property for less than fair market value to a non-government entity that is not consistent with the Authority's purpose must provide written notification to the Governor, Speaker of the Assembly, and Temporary President of the Senate. The transfer is deemed approved if there is no certification or resolution by the Governor, Senate, or Assembly within the applicable time period contained in the PAL.

However, the Governor, by signed certification, or Senate or Assembly, by resolution, may deny the proposed transaction.

When proposing a below fair market transfer, the following information must be provided to the Corporation board:

- A full description of the asset;
- An appraisal of the fair market value of the asset and any other information establishing the fair market value sought by the board;
- A description of the purpose of the transfer, and a reasonable statement of the kind and amount of the benefit to the public resulting from the transfer (the kind, number, location, wages or salaries of jobs created or preserved, the benefits to the communities in which the asset is situated, etc.);
- A statement of the value to be received compared the fair market value;
- Names of any private parties participating in the transfer, including a statement of the value to the private party; and
- The names of other private parties who have made an offer for such asset, the value offered, and the purpose for which the asset was sought to be used.

Additionally, the board must use this information and make a written determination that there is no alternative to the proposed below fair market transfer that would achieve the same purpose of such transfer. The Corporation board must provide this information before it approves a below fair market transfer.
